

Unbundled Copper Local Loop Performance Report

Consolidated Report

January 2011

Unbundled Copper Local Loop (UCLL) Performance Reports are prepared each month to provide a comprehensive view of our performance over the preceding month. These reports measure our performance against service levels defined in the UCLL Standard Term Determinations.

Executive summary

There were five Service Level Defaults this month: SL 2 (Notification of Rejection), SL 4 (Order is completed right first time), SL 9 (Change to RFS Date), SL 17 (Availability of OO&T) and SL 18 (Availability of OFM). Service Default Reports for these Service Levels can be found in the appendix of this report.

Points to note

Orders were excluded from Service Level calculations as follows:

- SL 2 (Notification of Rejection) - orders were excluded where the default was the direct result of an action that is the Access Seeker's responsibility under the UCLL General Terms
- SL 4 (Right First Time) - those faults not reported within 5 working days of completion or where no fault was found for which Chorus is responsible, were excluded from this measurement
- SL 15 (Faults restored within notified expected restoration time) - those faults reported where no fault for which Chorus is responsible was detected, and those defaults that occurred as a result of inability to access the end-users premises were excluded from the measure

Defaults that occur at the Access Seeker level but not at the consolidated level are reported to the relevant Access Seeker, in their individual report.

Further information

If you have queries, please email your Chorus Account Manager.

Provisioning UCLL services

January 2011

This section covers UCLL provisioning service, including ordering, notifications, and outages.

SL 1 - Orders acknowledged within four consecutive business hours of order receipt

Commentary

Performance has exceeded the required tolerance level

	Feb-10	Mar-10	Apr-10	May-10	Jun-10	Jul-10	Aug-10	Sep-10	Oct-10	Nov-10	Dec-10	Jan-11

Full explanation of terms used in this report

January 2011

Note: Chorus has summarised the relevant Service Levels for the purpose of this report. For the full description of each relevant Service Level refer to Appendices 1 and 2 of the UCLL Service Level Terms (UCLL Standard Terms Determination Schedule 3) which is available on the Commerce Commission's website at www.comcom.govt.nz.

Provision of UCLL Service

- SL 1 Percentage of UCLL orders acknowledged within 4 consecutive business hours following receipt of the order
- SL 2 Percentage of rejection notifications for invalid UCLL orders sent to the access seeker within 4 consecutive business hours following receipt time
- SL 3 Percentage of notification of expected RFS dates sent to the access seeker within 6 consecutive business hours of the deemed acceptance time
- SL 4 Percentage of UCLL orders that experienced no faults in work carried out to provision an order within 5 working days following confirmation by Telecom of completion of the order (Level A)
- SL 5 Percentage of UCLL orders completed by the notified expected RFS date (Level A)
- SL 6 Percentage of MPF relinquishment orders completed by the notified expected RFS date
- SL 7 Percentage of pre-qualification orders acknowledged within 4 consecutive business hours following receipt of order
- SL 8 Percentage of pre-qualification order completion acknowledgements made within 4 consecutive business hours following receipt of an authorised or unauthorised automatic pre-qualification order and percentage of pre-qualification order completion acknowledgements made within 6 working days following receipt of an order for a special manual pre-qualification investigation or manual line test
- SL 9 Percentage of notification of RFS date changes provided to access seeker within 6 consecutive business hours following receipt of the requests to change an existing order
- SL 10 Percentage of confirmation of completions of order provided to the access seeker within 4 consecutive business hours after the order has been completed
- SL 11 Percentage of planned outage notifications advised to the access seeker at least 5 working days before the planned outage occurs
- SL 12 Percentage of unplanned outage notifications advised to the access seeker within 2 hours on a 24x7 basis of telecom discovering or receiving notification of the unplanned outage

Fault management for UCLL Service

- SL 13 Percentage of fault report receipt acknowledgements provided to the access seeker within half a fault restoration hour of the fault being reported
- SL 14 Percentage of notifications advising the expected restoration time sent to the access seeker within 8 fault restoration hours of the fault being reported
- SL 15 Percentage of faults restored within the notified expected restoration time (Level A)

Telecom forecasting for UCLL Service

- SL 16 Percentage of written rolling 3-year cabinet forecast reports provided to the access seeker within 10 working days of the 6 month anniversary of the 07 November 2007

Operational Support Systems for UCLL Service

- SL 17 Percentage of OO&T availability to the access seeker
- SL 18 Percentage of OFM availability to the access seeker

UCLL Service Level Default

January 2011

Item No.	2	Tolerance Level	90%
Service Attribute	Notification of Rejection – All except Relinquishment		
Cause of default	Delays occurred in checking order information due to system faults. As a result, requests were not rejected within the allowed timeframe.		
Procedure for correcting default	Notification of rejection has taken place		
Steps taken to remedy default	Multiple system faults have been logged and are currently under action for resolution.		
Effectiveness of steps taken	Once the required system fixes are in place, failures will no longer occur for this reason.		
Date of previous defaults	April 2010, June 2010, July 2010, August 2010, September 2010, October 2010, November 2010, December 2010		

UCLL Service Level Default

January 2011

Item No.	4	Tolerance Level	90%
Service Attribute	Order is completed right first time – New Connection and Move Address		
Cause of default	The primary driver of failure of this Service Level was due to workmanship errors by the service technicians during the MPF 'Jumper' process		
Procedure for correcting default	A fault ticket has been raised in each circumstance and service has been restored for the customer		
Steps taken to remedy default	Analysis has been delivered to the Quality Assurance (QA) team to provide coaching and feedback to the service technicians		
Effectiveness of steps taken	The targeted analysis is providing for some improvements, but continued efforts are required to ensure this Service Level is achieved.		
Date of previous defaults	April 2010, May 2010, June 2010, July 2010, August 2010, September 2010, October 2010, November 2010, December 2010		

UCLL Service Level Default

January 2011

Item No.	9	Tolerance Level	90%
Service Attribute	Change to RFS Date – Move Address		
Cause of default	Delays in providing change of RFS date due to ongoing system fault resulting in increase in manual provisioning tasks.		
Procedure for correcting default	Notification of changed RFS Dates have been provided		
Steps taken to remedy default	A fault has been logged and is currently under action for a resolution. An interim manual solution has been put in place until the permanent system fix has been implemented.		
Effectiveness of steps taken	The interim remedial action is partially effective, although has not prevented a default from occurring. Once the required system fix is in place, failures will no longer occur for this reason.		
Date of previous defaults	n/a		

UCLL Service Level Default

January 2011

Item No.	17	Tolerance Level	99.8%
Service Attribute	Availability of OO&T		
Cause of default	There were two main outages in January that contributed to the failure of this Service Level. These outages were a result of failures within key system components, and resulted in delays in processing customer orders.		
Procedure for correcting default	System Availability was restored following each outage		
Steps taken to remedy default	In each case the relevant system component was restarted		
Effectiveness of steps taken	Partially effective - enhanced monitoring and testing have been introduced to minimise the likelihood of such outages reoccurring		
Date of previous defaults	October 2010, November 2010, December 2010		

UCLL Service Level Default

January 2011

Item No.	18	Tolerance Level	99.8%
Service Attribute	Availability of OFM		
Cause of default	There were number of outages in January that contributed to the failure of this Service Level. These outages were the result of incorrect system settings, flawed system changes and capacity issues. As a result there were delays in processing fault tickets.		
Procedure for correcting default	System Availability was restored following each outage		
Steps taken to remedy default	In each instance the relevant steps were taken – i.e. system settings updated, capacity increased and approval process amended to avoid flawed system changes being made in the future.		
Effectiveness of steps taken	Effective - additional monitoring introduced to minimise the likelihood of the reoccurrence of these outages		
Date of previous defaults	July 2010, August 2010, September 2010, October 2010, November 2010, December 2010
