

UCLL & UCLF Co-location Performance Report

Consolidated Report

November 2013

Introduction

Unbundled Copper Local Loop (UCLL) and Unbundled Copper Low Frequency Service (UCLF) Co-location Performance Reports are prepared each month to provide a comprehensive view of our performance over the preceding month. These reports measure our performance against service levels defined in the UCLL Co-location Standard Term

Executive Summary

There was 1 Service Level Default this month: SL 16 (Availability of OFM), Service Level Default Report for this Service Level can be found in the appendix of this report.

Points to note

Orders may have been excluded from Service Level calculations where the default was the direct result of an action that is the Access Seeker's responsibility under the UCLL & UCLF Co-location Standard Terms Determinations

Defaults that occur at the Access Seeker level but not at the consolidated level are reported to the relevant Access Seeker, in their individual performance report.

Further Information

If you have queries, please email your Chorus Account Manager.
