

UCLL Backhaul Performance Report

Consolidated Report

April 2010

Unbundled Copper Local Loop (UCLL) Backhaul Performance Reports are prepared each month to provide a comprehensive view of our performance over the preceding month. These reports measure our performance against service levels defined in the UCLL Backhaul Standard Term Determinations.

Executive summary

There were two Service Level Defaults this month: SL 15 (Availability of OO&T) and SL 16 (Availability of OFM). Service Default reports for these Service Levels can be found in the appendix of this report.

Points to note

Orders were excluded from Service Level calculations as follows:

- There were no exclusions made this month

Defaults that occur at the Access Seeker level but not at the consolidated level are reported to the relevant Access Seeker, in their individual performance report.
