

UCLL & UCLF Co-location Performance Report

Consolidated

May 2015

Unbundled Copper Local Loop (UCLL) and Unbundled Copper Low Frequency (UCLF) Co-location Performance Reports are prepared each month to provide a comprehensive view of our performance over the preceding month. These reports measure our performance against service levels defined in the UCLL Co-location Standard Term Determinations.

Executive summary

There were two Service Level Defaults this month: SL 15 (Availability of OO&T), SL 16 (Availability of OFM), Service Level Default Reports for these Service Levels can be found in the appendix of this report.

Points to note

Orders may have been excluded from Service Level calculations where the default was the direct result of an action that is the Access Seeker's responsibility under the UCLL & UCLF Co-location Standard Terms Determinations

Defaults that occur at the Access Seeker level but not at the consolidated level are reported to the relevant Access Seeker, in their individual performance report.
