

# UCLL & UCLF Co-location Performance Report

---

## Consolidated

June 2016

Unbundled Copper Local Loop (UCLL) and Unbundled Copper Low Frequency (UCLF) Co-location Performance Reports are prepared each month to provide a comprehensive view of our performance over the preceding month. These reports measure our performance against service levels defined in the UCLL Co-location Standard Term Determinations.

### Executive summary

There was one Service Level Default this month: SL 16 (Availability of OFM), a Service Level Default Report for this Service Level can be found in the appendix of this report

### Points to note

Defaults that occur at the Access Seeker level but not at the consolidated level are reported to the relevant Access Seeker, in their individual performance report.

### Further Information

If you have queries, please email your Chorus Account Manager.
